VILLA OPENLY DEFIES HIS CHIEF

**Break Between Rebel Leaders is
Now Absolute and Final.—Will
Move Toward Mexico City
With His Army**

El Paso, Tex., June 18.—(General Carranza tonight advised Lázaro de la Garza, Villa's agent here, that the difficulty between himself and Villa had been adjusted by Carranza giving his permission for Villa to proceed south to Mexico City, regardless of the appointment of General Natera as head of the new central zone.

Carranza said the forces of General Obregon in the west and General Guaymas in the east would work independently of Villa's troops. He concluded by saying that the misunderstanding between himself and Villa, and any future misunderstandings would be left for adjustment when the three armies met before the national capital. In the meantime Villa will run his own military and civil offices.

El Paso, Tex., June 18.—The split between Carranza and Villa has been complete. It was learned tonight on the highest authority. Villa will proceed with his army south toward Mexico City, disregarding General Natera, whose appointment by Carranza as head of the new central zone evidently caused the open breach between the northern zone commander and the Constitutional commander-in-chief.

**TO MEET AT
THE WENTWORTH**

New Hampshire Pharmacists Will Hold Two-Days' Outing at New Castle.

So well do the members of the New Hampshire Pharmaceutical association like the Hotel Wentworth, at New Castle, after already having two of their annual conventions there, they are to go again this year, the dates of the meeting being June 30 to July 1.

Automobiles will meet all trains on their arrival in this city and everything will be done by the management and by the committee for the entertainment and comfort of those attending.

Every city in the state will send a large delegation, many of the druggists and ladies being slated for the two days' outing. Tuesday afternoon there will be a business meeting addressed by the president, Eugene W. Emerson. During that period there will be an auto ride for the ladies to one of the beaches. Tuesday evening there will be a "stag" entertainment to be provided by the Traveling Men's auxiliary. In the meantime the ladies will be supposed to play whist, such a session being arranged for with prizes as an incentive.

Wednesday morning there will be a business meeting at 8:30 and at 10 a baseball game between the traveling men and druggists. At 2:30 there will be sports including a fut man's race; wheelbarrow race; 50-yard dash; egg race, etc.

In the evening there will be a banquet, the special guests to be Governor Peck and Mayor Harry B. Yeaton of this city.

All kinds of fresh vegetables at Toland's Market.

**FIND GIRL AND
LOVER DYING**

Broke, Providence Man Shoots Sweetheart, Then Himself.

Providence, R. I., June 18.—What appeared to be a suicide pact was disclosed yesterday when Antoinette Di Cecco, 18, of Douglas avenue, and Carmille Ticeculo, 24, were found unconscious in the woods in the rear of Stranbury street. Both had a bullet wound back of the right ear. Nearby was a 32-calibre revolver of which four chambers had been exploded, the fifth shell missing fire.

A letter in Ticeculo's pocket told of his love for the girl. He has a wife in Italy. The couple were taken to the Rhode Island hospital and neither is expected to live. They were employed at the Steere mill in Wanskuck and left their work yesterday morning together.

Late last night Miss Di Cecco recovered consciousness and repudiated the suicide pact theory. She told the police who were waiting at the hospital that Ticeculo and she had planned to elope, but after turning her to a lonely spot he had told her that he had no money to take her away.

He then drew a revolver and shot her. At midnight Ticeculo's death was expected momentarily and the girl was not expected to recover.

FIRE IN LAUNDRY.

Workman Badly Burned Fighting Flames Early This Morning.

The chemical was called by a mill alarm shortly after five o'clock this morning to the Portsmouth Steam Laundry where a lively blaze was in progress among some paper and clothing in the basement.

Charles Neah, an employe of the laundry, was severely burned on both hands while fighting the flames. Finding the fire was gaining headway, he called for help. Joseph Johnson, night watchman at the Rockingham garage, who hurried with fire extinguishers to the scene and did an excellent job of fire fighting before the firemen arrived. The flames destroyed a small amount of clothing and slight damage to the ceiling.

REPAIR WORK.

Railroad to Improve Its Part of the Sagamore Bridge.

The Boston & Maine railroad will shortly begin repairs on the Sagamore bridge which will include new planking, etc., on that portion of the bridge occupied by the railroad.

MORLEY GET AN EASY WIN FROM MARINES

Christie Wild and With Poor Support Gives Morleys An Opening.

With Saunders pitching the Morley team won a game from the Marines in rather easy fashion on Thursday evening. The pitched air tight ball, allowing but three hits, one of these a scratch and these were in the fourth and fifth inning, when he had a safe lead. He got fine support from his team mates, Hanton playing a fine game at short and Howard in left, while Pruet was usual on the job every minute.

It was a good game for the first two innings, neither side scoring, but in the third the Morleys got to Christie and scored six runs, on two hits, three passes and three errors, they scored two more in the fourth and then Bennett replaced Christie and they only scored once after that. The Marines did not present as strong a team. McCord has been pushed into left field and Strand placed on third and the change did not work well, Mims also was guilty of two errors which scored two runs.

The Game in Detail

FIRST INNING

The Morleys were up and Able drew a pass, he went to second on a short passed ball and in running to third was hit by McDonald's grounder to short and declared out, Pruet lined one at Moser who doubled McDonald at first.

Letch hit the first ball up to Hanton and was out at first, Berg grounded to Hanton who threw wild to first, Berg stole second, Moser flied to Howard and Mims was thrown out by McDonald.

SECOND INNING

Hanton was safe on Christie's fumble, he was sacrificed to second by Howard, Christie to Mims, and retired at third on Paul's sharp grounder to Moser to Strand. Moran struck out. McDevitt lined out to left that Howard made a fine catch of, Christie was out by the same route and Strand fanned.

THIRD INNING

The Morleys started something here, Grant drew a pass, Saunders shut out to Mims who allowed it to roll

through, Able was passed, billing the bases, a short passed ball scored Grant and the others moved up one. McDonald singled through short and second scoring, Saunders and Able. Pruet was hit by batted ball and was out, Hanton singled to left and stole second. Howard grounded to Strand who allowed the ball to roll through him and McCord fumbled it when it came to him, so that McDonald and Hanton scored and Howard made third, Paul was hit, Moran dumped one in front of the plate and was thrown out at first. Mims threw wild to the plate and Howard scored. Grant retired the side with a strike out. Six runs.

The Marines were out in order. McCord by a strike out, Hamilton a high fly to Saunders, Letch drew a pass and was thrown out attempting to steal second.

FOURTH INNING

Saunders was thrown out by Moser who made a fine stop, Able walked for the third time, and stole second, McDonald was thrown out, Moser to Mims, Pruet singled to center and Berg fumbled it so that Able scored and Pruet went to second. He stole third being safe when Strand failed to touch him, the throw being a good one. Hanton walked. Bennett succeeded Christie, he passed Howard, Paul singled through short and Pruet and Hanton scored, Moran struck out. Three runs.

Berg hit a hard one at Hanton who stopped it, but it was to hit to handle, a passed ball gave him second, Moser was out on a fly to Hanton. Mims on a fly to Saunders, McDevitt singled to center and Berg scored, McDevitt being thrown out going to second. One run.

FIFTH INNING

Grant and Saunders struck out. Able was thrown out by Strand. Bennett singled to center, and stole second, and went to third on Grant's error of Strand's fly. McCord flied to Moran and he threw to second to stop Strand moving up. Bennett scored, but the umpire saw that Bennett did not go back to third after the fly was

GUIDE TO SEQUOIA AND GENERAL GRANT NATIONAL PARKS

Detailed information regarding the methods of seeing the Sequoia and General Grant National Parks—the home of the Big Trees—is contained in a circular just issued by direction of Secretary Lane. These parks are situated in Tulare and Fresno Counties, California, and are celebrated mainly for the great groves of the big trees which are scattered through them. Sequoia National Park may be reached from Visalia, thence by way of electric railway to Lemon Cove, thence 40 miles by stage or private conveyance to Camp Sierra in the park. General Grant National Park can be best reached from Sanger, thence by automobile stage or private conveyance a distance of 46 miles to the park. The streams and lakes in these parks afford splendid trout, shiner, bass, and catfish. The waters are all pure and fit to drink. The forests contain the largest, oldest tallest, and most valuable trees in the world. Ashie from the giant sequoia, there are other forests of pine, fir, cedar, and many deciduous trees that are truly royal. There are many shrubs, wild flowers, ferns, and mosses of superb beauty, with frolicking wild animals and beautiful song birds are another enjoyable and attractive feature of the parks. In four of the groves certain trees within them have been named, while in all other groves they have not. The General Sherman Tree was discovered by James Wolverton, a hunter and trapper, on August 7, 1879; at which time he named the tree in honor of General Sherman, under whom he had served during

the war. The General Grant Tree was named by Mrs. Lucetta P. Baker, who was a member of the party which camped near the tree in August, 1867. This tree has a height of 264 feet and a base diameter of 35 feet. In addition to the rules and regulations this circular contains the titles of books and magazine articles, and annotated lists of birds and mammals that are found within the parks.

OVER 44,000,000 SOLD.

More than 44,000,000 Red Cross Christmas seals were sold last December, according to a report just issued by the National Association for the Study and Prevention of Tuberculosis, and the American Red Cross. In this way \$440,000 is added for anti-tuberculosis work in various parts of the United States.

The sale in 1913 is a gain of 4,000,000 seals over 1912 or 10 percent. It is hoped that this year the 50,000,000 mark will be reached. The seal design for 1914 has been selected and orders for the printing of 100,000,000 seals have been placed. Plans for the organization of a larger sale this year than ever before have been perfected.

New York state lead the country last year with a sale of 10,500,000 or one for each man, woman and child in the state. Of this number, more than 6,825,000 were sold outside of New York city. Ohio came next with a sale of 2,800,000, Wisconsin 3d with 2,700,000, and Illinois fourth with 2,500,000. Hawaii sold the most seals per capita, the total sale being somewhat over two for each inhabitant. Rhode Island came second with a sale of two per person.

Beginning with a sale of 13,500,000 in six seasons the revenue which these little holiday seals have brought to the anti-tuberculosis campaign has more than tripled, an aggregate for the period of over \$1,800,000 or 180,000,000 seals.

THE CANAL AS A TIME SAVER

The Vancouver Board of Trade, which has been making investigations in regard to the comparative rates of carrying cargo from British Columbia ports to the Atlantic coast of North and South America and to Europe through the Panama Canal and around South America, has given out a statement which should be of general interest to shippers of Western Canada products to the European markets. It is shown by the report that on the basis of the present canal rate a steamer of the average size which probably will operate through the canal will have to pay \$9000 to \$12,000 for such passage.

The fastest steamers now make the run from Vancouver to New York around the Horn in sixty-five to ninety days, under a daily cost of \$800 for operation. By the Panama Canal the same vessels will make the journey in about twenty days. On the basis of sixty-five days for the other route this makes a difference of forty-five days, which, multiplied by \$500 a day for operating costs, gives \$22,500. This amount represents the actual saving to the steamer's owners by making the trip through the canal. If ships can make the trip by way of the canal in twenty days, they will be able to make two trips in the time which is now consumed in making one. This will naturally increase the earning capacity of the vessels. New York Times.

On and after June 30, 1914, the ash collection will be extended as far as the Greenough House on Billington Road. Collections will be made in that district on Tuesdays until further notice.

On and after the above date the Board will not collect more than four packages from any one house or place of business. Loose paper will not be collected. Paper should be tied in bundles to avoid blowing about.

OUIMET MAKES POOR SHOWING ON FIRST DAY

Prestwick, Scotland, June 18.—(Glasgow) weather erected the opening here to day of the 54th annual competition for the British open golf championship in which are engaged, besides the best amateurs and professionals in the British Isles, Francis Ouimet, open champion of the United States, Eric Apperley, a prominent Australian player, and three of the leading French golfers.

The 100 competitors, who are composed of those who returned the lowest scores in the recent qualifying competition at Troon, have to play four rounds of the 18 hole course. The greens had been watered over night, but the course was very fast when the first couple left the tee at 8 o'clock this morning.

Among the early cards returned on the first 18 holes were those of Harry Vardon, a former champion, who made the splendid score of 73; J. J. Taylor, the holder of the open championship, who made a 74; Tom Williamson, with 75, and several 76 cards.

Francis Ouimet took 85 strokes to make the round and was easily beaten by J. L. C. Jenkins, the British amateur champion, who made it in 79.

Ouimet kept getting off the line with his drives, and also frequently was weak with his approach shots, with the result that he had to play from the rough near the green. Once on the green, however, his putting was very steady. His weak approaches were the worst feature of his game. This card read:

Out 4 4 5 4 4 5 1 5 6 4 11
In 5 5 7 5 4 5 5 5 4 4 42

Ouimet's aggregate score for two rounds of the course was 165.

ANNUAL RECEPTION OF GRADUATION CLASS

Held at Freeman's Hall With Large Attendance--Pretty Dresses Add to Military Scheme.

The reception of the graduation class of the Portsmouth High School was held on Thursday evening at Freeman's hall and it was one of the most brilliant social affairs of the year and a remarkable pretty party.

The members of the class were generous with their invitations and the result was a large gathering, both on the floor and in the galleries, the latter being crowded, a large number being in line when the doors first opened.

The hall was very prettily decorated, the color scheme of green and white, the class colors, being used most effectively.

Lighting of these colors was used to drape the facade of the galleries and the side walls and about the stage, which

men in dark coats and white flannel trousers. The march was one of the class has been drilled in by Miss Georgine Moses, and it was well executed. Forming in twos and gradually working up to sixteen couples, and from that breaking up into a spiral formation which was very pretty. It was led by Pres. Hewitt and Vice president Miss Donahue, Treasurer Venton and Secretary Miss Newton.

Dancing followed until one o'clock this morning and it was a most enjoyable affair. It was of course distinctly a young people's party and they all looked very handsome in their pretty gowns.

MASS. LEGISLATURE NOT TO MEDDLE WITH B. & M. THIS YEAR

Boston, June 18. There will be no legislation this year on the question of separating the New York, New Haven & Hartford and the Boston & Maine railroad systems if the legislature acts favorably on a report adopted today by the joint committee on railroads to submit the question to a recess committee which should report its conclusions in January, 1915.

Five of the 15 members of the committee dissented. These were Representatives George H. Ellis of Newton (the house chairman), Robert W. Washburn of Worcester and James H. Barry of Agawam and Peter F. Tagne of Boston and Senator Edward Fisher of Westford.

The action of the committee was also in opposition to the expressed wishes of Governor Walsh, President of the senate and Speaker of the house, all of whom desired to have the matter of the separation of the two railroads settled at the present legislative session. The department of justice and the New

Hampshire railroad had requested that some legislative action be taken.

This phase of the railroad situation was made the subject of a special message by the governor. The railroad committee, after conferences attended by both roads and of the Public Service commission, appointed a subcommittee, with instructions to draft a bill providing for the separation of the roads and the retention of state control over the Boston & Maine stock held for the New Haven company by the Boston Railroad Holding company. The subcommittee could not agree on a bill and the full committee again took up the matter, finally deciding today to place the entire question in the hands of a recess committee, which should report a bill to the legislature in January next.

The electric and gas future display at Ballard's, 67 Congress street, is worth seeing. This house lighting proposition will interest all.

Exclude Dangerous Drugs.

The annual report of the coroner of Cook county, Ill., shows that in Chicago and vicinity last year 148 persons died as a result of accidental poisoning. This leads him to recommend what has been recommended before, namely, that bottles containing dangerous poisons should be of distinctive shape in order that they might be identified in the dark, many of the fatal cases resulting from taking from the medicine shelf in the dark poisons that were supposed to be harmless preparations.

But while distinctive bottles might lessen the danger to some extent, it hardly to be believed that they would remove it entirely, for the element of human carelessness would still be present, and that is what constitutes the greatest danger. All bottles containing dangerous drugs are properly labeled by the sellers, and people who will not take the pains to notice the labels would in most cases be equally careless with reference to the shape of the bottle. Therefore while special bottles might relieve the situation to some extent, they would not wholly remove the risk that is involved in keeping deadly poisons in the assortment of family medicines.

The proper step toward eliminating this peril, is to not have the poisonous preparations in the house. The large number of deaths resulting from their use, not only in Chicago, but in all parts of the country, proves that they do more harm than good, and this is probably true in most cases, even when death does not ensue. It is the part of wisdom to leave the administration of powerful remedies to the family physician and to confine home treatment to preparations that are known to be harmless. There is no valid excuse for the presence of deadly poisons among the family medicine vials.

Without doubt some of the deaths attributed to accidental poisoning are suicidal, it being natural and charitable for the family and the authorities to so construe them, so far as possible. And here, again, there would be an advantage in the absence of deadly drugs, for if they were not at hand the mood prompting to self-destruction would in many cases pass before the means were procured, and lives would be saved.

No well regulated household needs deadly drugs in its outfit, and they should be rigidly excluded. In this course lies safety, and it is the only course which will render a family immune from liability to happenings of the most tragic character.

Mr. Roosevelt's Throat Trouble.

Whether or not Theodore Roosevelt has a bad throat—the fact that a London specialist has advised him to keep "off the stump" politically cannot be considered other than good fortune. Ex-President Roosevelt is too shrewd an observer to have missed reading the situation as to a third party and it is going to let him out very nicely and those who have for months insisted that he would not be leading a third party again can say "I told you so." There has been a strong belief that he would seek the republican nomination and it begins to look more and more like it. The republican party is becoming stronger than ever.

A division superintendent of the Boston & Maine railroad says the orders are to cut expenses without impairing the service. If this is possible why has it not been done before? Perhaps before the experiment ends the public may conclude that it is not possible. If it can be done the step will emphatically commend itself to Secretary Redfield, who will regard it as an admirable demonstration of "efficiency."

It is to be hoped that the nations who are trying to frame a government for No Man's Land will be able to conclude the work without resorting to the means of the inhabitants, which are those known to "primitive man," and which have resulted literally in the "survival of the fittest."

The flying machine may yet be put to practical use in hunting up western farmers lost in their wheat fields. Kansas reports a case of that kind, and no one will question the reliability of such a report when it comes from "bleeding Kansas."

Boston has again celebrated the battle of Bunker Hill, and the settlement of the Mexican imbroglio and other affairs of national import may not proceed. And yet "it was a famous victory."

Frost in New York state, snow in Vermont and serious discomfort from cold in many other parts of the country will serve to make the present June memorable.

There has been another cut in the price of crude oil, and yet nothing is heard about a reduction in the cost of living, nor are any bouquets being passed to John D.

Very properly do the fashion pages and articles in the newspapers and magazines speak of the "things" that women wear.

Wilson also bids fair to be known, to some extent at least, as a "My Policies" president.

RAILROAD DON'T WANT TO PAY

Public Service Board Will Settle Bridge Argument.

The public service commission today is hearing members of the Manchester City government on the matter of the South Elm street bridge in that city. The bridge which bears all traffic, including the trolley line, to the southern section of the city and its outlying suburban territory has been condemned by the public service commission. The commission ordered its removal as a means of adding public safety, but on the condition that a new structure is to be built immediately, allowed temporary repairs to be made. The bridge spans the tracks of the Portsmouth branch of the Boston & Maine railroad and the tracks of the Lawrence division.

Claim is made by the city that the Boston & Maine railroad, and the Manchester street railroad should pay a certain portion of the cost of a new permanent structure, and has filed a petition to have the proportionate cost fixed. In answer to the petition the Boston & Maine railroad has denied all liability and says it is not responsible for the maintenance of the bridge or any part of its cost. It is on this answer that the hearing Friday will take place. The street railway has not filed its answer.

INTERNATIONAL TIME SIGNALS

Senate Ratifies Treaty for Sending Them.

The action of the Senate in ratifying the convention providing for organization of an international time association created considerable interest in scientific circles. Relief was expressed that this step would give impetus to the movement to secure unification of time throughout the world. Twenty-four other countries have subscribed in the convention and are expected to follow the lead of the United States in ratifying the instrument. Other nations are admissible.

The object of the association is the unification of time by the use of wireless telegraphy or other signals, whether they be of extreme precision or ordinary signals.

In ratifying the convention the Senate made these reservations:

First—That the United States may send time signals from such radio stations of its own as it may designate, and at such time as it may decide upon.

Second—That it may be free to use, in sending radio time signals, the method that it has used in the past, or such modification thereof as may seem to be desirable.

Third—That it is to be understood that in agreeing to this convention, the United States Government does not undertake to exercise any control over private radio stations; that may possibly be contemplated beyond what is permissible under existing laws.

The countries, in addition to the convention in Paris, October 16 last, were, Argentina, Austria, Belgium, Brazil, Chile, China, Denmark, Ecuador, Spain, France, Great Britain, Greece, Guatemala, Italy, Liberia, Monaco, Nicaragua, Netherlands, Portugal and Uruguay.

CURRENT OPINION

Proposed to "Shut Out Il-literates Because They Are Immigrants."

I think that the literacy test for immigrants is a sham and a fraud, because it is not what it purports to be. Its object is not to shut out immigrants because they are illiterate. Illiteracy is a defect which can be remedied. Its object really is to shut out illiterates because they are immigrants. And if the advocates of this measure knew any other way by which they could shut out an equal number of immigrants they would not hesitate to resort to it.

The arguments against this proposal have been so well stated by President Cleveland, President Taft, Secretary Nagel and President Wilson that no further argument upon this subject should be necessary. It is President Wilson who said:

"I think that this country can afford to use and ought to give opportunity to every man and woman of sound morals, sound mind and sound body who comes in good faith to spend his or her energies in our life, and I should certainly be inclined, so far as I am concerned, to scrutinize very jealously any restrictions that would limit that principle in practice."—By Cyrus L. Sulzberger, New York Philanthropist.

THE TOOTHBRUSH FAILS

Is Not a Substitute for the New Testament.

Rev. Austin Rice, a Unitarian minister of Wakefield, in speaking at King's Chapel, Boston, said that social service was running wild, and that personal responsibility and regard for one's own personal soul should not be entirely lost sight of.

Mr. Rice spoke at the meeting of the Ministers' Union, whose purpose is to reunite Protestantism and to establish friendly relations among all Christian denominations, with the hope that eventually the Roman Catholics may join in some kind of union with Protestants.

Rev. Lewis G. Wilson, secretary of the American Unitarian Association, who presided, said that the cause was so worthy that King's Chapel should have been crowded. As it was there were possibly 50 ministers of various Protestant denominations present.

The subject of Mr. Rice's address was "The Gospel Ideal of Personal Responsibility."

"When men get into trouble," said the speaker, "they are too fond of shifting responsibility. They attempt to put the blame upon circumstances and environment, yet, as a rule, their wrong-doing is one of personal choice."

"While I do not mean to disparage the good accomplished through social service, I do think that social service sometimes runs to maudlin sentimentality. Crime is condoned and the criminal is almost encouraged to shift his personal responsibility to other shoulders."

"Reference to metropolitan news-

paper accounts shows that culprits when apprehended, shift the blame to the police or to other circumstances or influences. The police never gave him a chance, is a popular excuse."

"A leading sheriff in our state went so far as to say that if prisoners had been brought up to know the benefits of a bath and a tooth-brush, that there would be fewer criminals. Yet it is hard to believe that the tooth-brush is a substitute for the New Testament, or that a Turkish bath even has remarkable generative influence upon the soul. This same sheriff has been reported later to have threatened at a public hearing to kill a city official and according to his own reasoning it must be supposed that the sheriff had not used his tooth-brush that morning."

"Inez Milholland observed that the New York gunmen, who were recently executed kept their mouths open. She argued that they had adenoids, and therefore were excusable because they had not had a good start in life. Becker, on the other hand, was a powerful man—a man of authority, one whose influence in social lines would have worked wonders. If it had been properly directed, therefore according to Miss Milholland, the gunmen deserved pity because they were weak, and Becker deserved pity because he was strong. To such lengths does sociology carry us. The argument seems to be that nobody is wrong in particular, because everybody is to blame in general. There are elements of truth in such a conclusion, but as a whole it is exceedingly shallow."

"There should be a renewed search for personal worth. I am informed that most preachers to college students nowadays appeal to altruism and deal lightly with the development of personal character. But it is true that college students, as well as others, are asking for a more definite gospel ideal. If a man's soul is not worth something to himself, it is not likely that he will stir himself to save others."

For years she has been waiting for him to propose, but when at the point of proposing he loses his nerve.

"A Brawnytown Romance"—is on the same reel.

She loves to Tango. Her lover does not dance. She dances with another and her lover looks for fight. Very funny.

ACT—The Alvinos—Musical Act.

"Dogs of War"—Pathe Drama—Military.

The newest thing in the way of assistance to the army in time of war is the use of dogs as messengers. The recent Swedish Military Maneuvers gave an opportunity to the world to see these canines in moving pictures in actual service. Don't miss the opportunity.

"Broncho Billy's Sermon"—Essanay Comedy-Drama.

This is another good picture which affords G. M. Anderson opportunity to display his exceptional abilities in all lines of moving picture acting. "Broncho Billy's Sermon" mixes laughter and melodrama in just the right proportions.

"MONDAY AND TUESDAY"—When the Men Left Town.—A two-part Edison Comedy.

HOT SHOT FOR MR. SPAULDING

Pillsbury Wants to Know
About Appointments, Etc.

Rosecrans W. Pillsbury has addressed an open letter to Rolland H. Spaulding in which he asks these questions:

"First, Will you if elected governor oppose with your best ability the proposed increase in railroad passenger fares and freight rates which would oppress the people and industries to make good the footing by special interests of millions of dollars from the railroad? Will you oppose this increase which would place a burden on our industries to retard them for years?"

"Second, The public service commission is made up of two Progressives and a Democrat. Will you if elected governor appoint a Republican in place of John H. Benton, Progressive?"

"Third, The license commission is made up of two Democrats and a Progressive. Will you, if elected governor, appoint a Republican in place of William J. Britton, Progressive?"

SULPHUR DRIES UP ECZEMA AND STOPS ITCHING

This Old Time Skin Healer is Used
Just Like Any Cold Cream

With the first application of hold-sulphur cream the angry itching attending any eczema eruption ceases and its remarkable healing powers begin to manifest. Just a common hold-sulphur, made into a thick cream will soothe and heal the skin when irritated and broken out with eczema or any form of eruption. The moment it is applied all itching ceases and after two or three applications the eczema disappears, leaving the skin clear and smooth.

He tells eczema sufferers to get from any good pharmacy an ounce of hold-sulphur cream, and apply it to the irritated, inflamed skin, the same as you would any cold cream.

For many years this soothing, healing sulphur has occupied a secure position in the treatment of cutaneous affections by reason of its parasite-destroying property. It is not only parasiticidal, but also antipruritic, unobtrusive and remarkably healing in all irritable and inflammatory conditions of the skin. While not always establishing a permanent cure it never fails to instantly subdue the irritation and heal the eczema right up and it is often years later before any eruption again appears on the skin.

POLICE COURT.

The colored delegation that mixed it up at the saloon on Market street on Thursday evening, were before Judge Torrey in the district court today. Maud Gardner, Anna Lee and Frances Ashby were charged with assaulting Ella Bennett. Miss Gardner was discharged. Miss Lee was fined \$7 and costs of \$8.44. She appealed and gave bonds. Miss Ashby paid a fine of \$5.75. Isaac Evans, the only male member of the indoor combat, was charged with assault on Maud Gardner. It was a long story and the court decided on the evidence that he had a hand in the scrap fight. He paid \$3 and costs, \$5.50, for what he handed to Maud.

Trapp Academy hall was crowded to the doors on both Thursday afternoon and evening, the occasions being the class day exercises by the seniors in the afternoon and the annual debate by the Juniors in the evening. For these occasions the stage had been handsomely decorated, the whole hall being banked with ferns, while on the sides huge bunches of cyclamens were placed. Shortly after 2.30 the exercises of the afternoon were begun with a piano solo by Miss Ellen Bowden and the following program then ensued:

Class History, Miss Mildred Cheney
Class Oration, "The Submarine,"
Ralph Fletcher
Phyno Solo, Miss Ellen Bowden
Class Prophecy, Miss Irma Bridges
Class Will, Miss Ruth Natino
Phyno Solo, Miss Mary Durkin

The cross numbers eleven, nine girls and two boys, and all were seated on the stage, suspended above them was the motto, "Carpe Diem." In the class colors, crimson and gold. The class parts were all well written and listened to with great interest by the large audience, composed of the parents and friends of the graduates and school in general.

In the evening the second large audience gathered there to hear the debate by the Junior class. This is the largest class of Juniors the Academy has ever had, there being thirteen members. Music was furnished by Landers' Orchestra of three pieces. The question debated was: Resolved—That immigration to the United States should be restricted to those alone who can read and write some language. The affirmative side was taken by the Messrs. Raymond R. Hobbs, N. Lindley Morrow and Norman W. Drown, and the negative side of the question was discussed by the Messrs. Clara M. Dixon, Edith J. Nedean, and Ruth V. Furbish, the program being announced by Prof. G. H. D. L'Amouroux as follows:

Musie.
Raymond R. Hobbs.
Clara M. Dixon.

N. Lindley Morrow.
Edith J. Nedean.
Musie.
Norman W. Drown.
Ruth V. Furbish.

Announcement of Judges.
Musie.

The arguments on both sides of the question were well presented, showing that they had taken much time and thought to prepare them. The judges gave the decision to the affirmative side, but gave special mention to the 2 girls prepared by the negative, Rev. J. J. Cornish of Eliot, Alexander Bennett and Elmer J. Dunningham of Kittery were chosen as judges.

The motto for this class is "Virtute et Labore," and this was suspended above the stage, the letters being made of flowers, filled in with evergreen.

The officers and members of the class of 1915 are as follows:

President, Susie E. Scowards.
Vice President, Raymond R. Hobbs.
Secretary, Dorothy J. Wadron.
Treasurer, Marion A. Drackett.
Adelaide A. Bond, Marion E. Blake, Clara M. Dixon, Norman W. Drown, Ruth V. Furbish, Elmer Gerry, Marion Ham, Clarence B. Jackney, Clifford M. Jenkins, N. Lindley Morrow, Edith J. Nedean, Harry M. Nolan, Walter B. Thompson, Dwight F. Walker, Ruth M. Young.

The evening at eight o'clock the commencement exercises with on hand, the speaker of the evening to be Prof. Arthur J. Roberts, president of Colby College.

The regular meeting of Bridge Encampment, I. O. O. F., will be held this evening.

OUTING AT RYE BEACH.

The annual outing of the Dutton Club of Newburyport, Mass., was held on Thursday at Rye Beach and the event was a big success for the merry

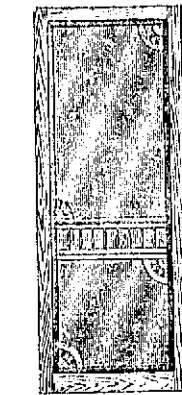

gathering spent an enjoyable day at this popular resort. The attractive list of sports as well as the dinner featured the affair. A surprise was in store for the members when the dinner was served at the Paragon House for a lady and gentleman, cabaret singers, entertained the party. A luncheon was served at the clubhouse in the morning at 10.30 o'clock. John O'Connell presided at the piano and there was singing of the popular songs by the gathering. In the afternoon there was a base ball game and other sports.

VILLA PRESENTS AN ULTIMATUM TO CARRANZA

Demands Separation of Military and Civil Government--Villa Has Army Back of Him.

El Paso, Tex., June 18.—That Villa has presented an ultimatum to Gen. Carranza, demanding the absolute separation of civil and military branches of the Constitutional Government, was the substance of dispatches received at Constitutional headquarters in Piedras Negras today. A committee of three officers was said now to be in conference with Gen. Carranza at Saltillo presenting Villa's plan.

JOINT APPEAL TO LEADERS

El Paso, Tex., June 18.—The success or failure of the Constitutional cause depends upon a complete settlement of the difficulties between Gen. Carranza, political head of the Mexican revolutionists and Gen. Villa, his chief military leader. In the opinion of prominent members of both factions here, who today anxiously await developments following the dispatch, last night, of a joint appeal for harmony to both leaders.

The rumor that the cargo of the steamship Anilla, which was loaded for the Constitutionalists at Tampico a fortnight ago, had fallen into the hands of Villa's lieutenant, has served to intensify the feeling of uneasiness.

With the belief general here in Constitutional circles that the Federalists at Zacatecas have been reinforced recently, the hope of speedy capture of this important point is far from bright. Situation thought critical.

Determined to prevent a complete breach between the two revolutionary leaders, a group of Mexicans met at a

ante, who had gone to Tampico for the purpose of seeing that Villa received the shipment for which he had held from his divisional fund. Carranza's forces in the East got none of the ammunition. Thomas Edwards, the American Consul at Juarez, has sent a report to the State Department relating the assertion of Villa officials that, in breach between him and Carranza in no way would interfere with the military movements against the Huertista Government.

Mr. Edwards declared late last night that in no way did he assert that the trouble between the two revolutionary leaders had been pitched up. He said he merely had given the official version of the split and that as far as he was concerned, nothing definite had been learned to the effect that the trouble had been composed.

I. W. W. COMMITTEE MUST RETURN FUND

Lawrence Strike Leaders, Held Personally Liable for Contributions—Ordered to Turn Over Money to Supreme Court.

Money contributed to the relief of the strikers during the textile strike at Lawrence in 1912 constituted a public charitable trust, and members of the strike committee are personally liable for its expenditure, under a decision of the full bench of the Supreme Court. The court orders Joseph Bedard, William Trautmann, Joseph Shabben and William Yates, members of the committee, to pay to the clerk of the Supreme Court at Boston the sum of \$5800 with interest, and Bedard, Trautmann and Shabben are ordered to pay in the further sum of \$375.85 representing moneys received by them and not accounted for.

The receipts during the strike were \$62,651.10 of which the A. P. of L. contributed \$10,025.00 and the Socialists \$19,383.66. The sum of \$16,183.72 was deposited in the Lawrence Trust Company in the name of the I. W. W. Local 20, and \$36,375.68 received by the committee did not pass through the bank. The respondents claimed that it was impossible to tell the amount contributed for relief and that given for general purposes, but the court, in an opinion written by Judge Sutherland, says that it was for the defendants to keep the trust fund distinguished from other moneys in their hands, and the consequences of any failure on their part to comply with this duty must fall upon themselves.

The proceedings were brought by former Attorney General James M. Swift at the instigation of Rev. Herbert S. Johnson, James M. Prendergast and other contributors to the fund.

MAN KILLED AT MANCHESTER

Manchester, June 18.—Drawn in between the rollers of his machine in the woolen department of the Amesbury Mills, Dimitrios Sakarikos, a Greek, aged 21 years and living in the rear of 21 Cedar street, was crushed to death early this morning.

The man was working underneath his machine when caught, and so horribly was he mangled that it took about forty minutes to get the body out of the machine, necessitating the removal of parts of the apparatus. The accident was one of the most gruesome that has taken place in this city for years.

Atanasios Bontas, a fellow employee was working about his machine when he heard a yell about 5 o'clock it was then, he says, turning over he saw Sakarikos way under the machine and fast disappearing between the rolls. He brought the machine to a stop and rushed to the man's assistance, crying for help the while.

STORY OF CREATION TOLD IN MOVIES

Thrilling Drama of the Flood Among Scenes to Be Depicted in Films

Two weeks' program for Portsmouth Theatre.

The greatest achievement in the simplification of Bible study since King James ordered the translation of the Bible from Latin into English has been accomplished in the "Photo Drama of Creation," which is to be presented twice daily on the next two Sundays, June 21st and 28th at 3 and 8 o'clock p.m. at the Portsmouth Theatre.

Through the efforts of the Internat Bible Students Association which has arranged this exhibition, it is now possible to study the Bible through the medium of powerful, dramatic moving pictures.

Shown Without Charge. These pictures are now being shown all over the country, absolutely without charge, and with no appeal what ever for funds. The association is entirely supported by private voluntary donations.

From the time of the creation down to the day of the crucifixion and the following resurrection, science, history and the Biblical teachings are harmonized, and it's harmonization is said to be the greatest achievement of the whole of the pictures.

Story of Creation

The story of creation so graphically depicted in the photo drama is in attractive, educational and distinctly religious in spirit. It is drawn as accurately as possible from the Bible account.

The story of man's creation in his Maker's image, of his disobedience, of the result of the fall from divine favor of the downward tendency of sin, is brought out by easy stages in scenes which flow up to the time of the Deluge.

In delineating the philosophy and fact of the Deluge the Bible account is strictly followed. Here the moving pictures begin. The pictures which tell the story of the Deluge and the building of the Ark by Noah, are probably the most inspiring and awful in the entire exhibition.

Building the Ark

The construction of the Ark stages gives a very realistic idea of how Noah and his children worked to complete the task. The old patriarch is shown pleading with his neighbors to follow the word of God and prepare for the great catastrophe, but his hearers, who have gathered about to watch Noah and his family toil, laugh and mock him as he speaks. Then, finally, the great Ark is completed. The mockers, still gathered about, see the old man lead in the beasts, two by two, and still they laugh and refuse to listen to his pleadings. Then Noah orders his sons to enter the big boat, and when the doors are closed the people rush at the Ark and pound at its doors, making sport of what they consider foolish fanaticism. Then the sky darkens suddenly. A great storm arises.

Mockery Turns to Terror

The people's mockery now turns to terror. The rain falls in torrents and the sea swells rapidly. Men and women gather up little children and rush to the Ark for refuge. But they find the doors locked fast against them. The moving pictures here are very realistic. The Ark floats upon the rising waters until the last man, clinging desperately to the craft, is swept away by the angry waves.

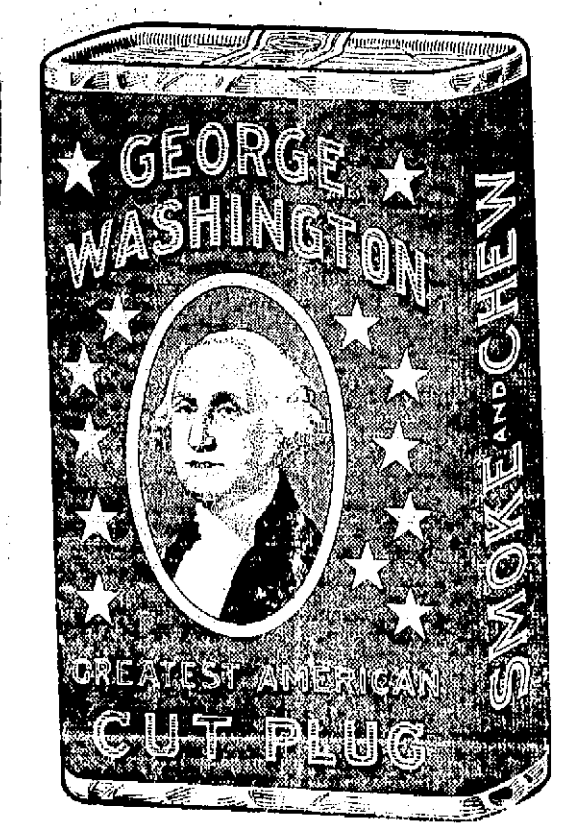

Shown in Sections

Part one of the drama carries the Bible story thus far and on through the account of the confusion of tongues at Babel, and the history of the patriarch Abraham. The entire drama requires about eight hours to be shown and hence is divided into four parts. The following sections portray in pictures the principal events in the history of the Jewish nation and the Christian church. Two sections will be shown on each Sunday thus completing the drama during the two day showing.

Throughout the exhibitions a lecture is given by a phonograph, which is so constructed that it is strong enough to fill the auditorium. The machine is perfectly synchronized with the pictures so that they fit exactly and its enunciation is clear that every word may be heard distinctly in the remotest corners of the auditorium. A musical program is also rendered by the phonograph. This consists of an elaborate overture and choruses during the impressive scenes.

NAVY YARD NEWS

Navy Orders

At C. H. Shaw, the Wheeling, to naval hospital, Boston; Junior Lt. R. A. Burg, from the Tonopah, to New London Ship & Engine Building Co., Groton, Conn.; Basilga R. P. Mecklewick, the Kentucky, to the Culgoa; Asst. Surg. C. R. Baker, the Mochlan, to the Paduanah; Asst. Surg. J. E. Woodland, the Paduanah, to the Michigan; Chief Machinists M. M. Schreleber, the Ohio, to the Kearsarge; L. T. Cooper, the Kearsarge, to the Ohio.

Naval Vessels' Movements

Arrived—Marietta at Laramak, San Jo Domingo; Cincinnati at Nagasaki, Callao at Hongkong, Pompey, Dale, Bainbridge, Murry, Chauncey, Pisenau and Ajax at Anoy; Lamson at Charleston, Vicksburg at Thuron, Potomac at Portsmouth, N. H., Nashville at Alvarado, Mex., Paduanah at Vera Cruz.

Sailed—Claxton and Saturn, from Mazatlan for San Diego; Treble, from Topolobampo for La Paz; Saratoga, from Kinkiang for Hankow, Helena, from Shanghai for Hankow; Uncas and Constellation, from Newport for Norfolk; Solace, from New York for Vera Cruz; Du Pont, from Newport for Pad River.

The Du Pont has been assigned to duty with the Massachusetts naval militia. The McDougal was placed in commission at navy yard, Boston, June 14.

Potomac in Good Shape.

Regardless of the fact that the tug Potomac, the best boat of her type owned by the navy, was ice bound for two months during the winter in the gulf of St. Lawrence, the navy officers found her in good shape when she was docked on Thursday. The only damage found was on her keel, and a few rivets had been drawn. Her machinery and boilers are in excellent shape and will need but little overhauling. While in the dock a new propeller will be put on. The officers estimated 20 days for the work in the dry dock, but now believe it can be done in less time.

In Redlight District.

The 12th company of marines which left this yard in command of Captain Nutrick is doing duty in the red light district at Vera Cruz.

To Make Boat Cushions.

The navy department has decided to divide the work of manufacturing boat cushions among the several yards. For several years this work has been assigned exclusively to the League Island station at Philadelphia.

Will Go to Port Royal.

Arrangements are being made for the transfer of several prisoners from this yard to Port Royal detention barracks with the view of restoring them to active duty.

Six Get Cards.

Three shipfitters and three boys for the machinery and hull divisions were called by the labor board today.

Still on Board Ship.

The last battalion of marine guards known as the 45th company, which left this station in command of Sergeant McElroy and later commanded by Capt. William Parker, is still confined to the battleship New York in the harbor of Vera Cruz.

Mexican Crisis Expensive.

Expenditures of the Navy department in connection with the expeditionary movement to Vera Cruz form the bulk of \$2,532,013.25 deficiency estimate submitted to congress today by Mr. McAdoo, Secretary of the Treasury. For the navy there is asked in all the sum of \$1,282,978.31.

The principal deficiency in the navy estimates is the item of coal. The sum of \$700,000 is asked to replenish the naval coal supply. The estimates show that for several years the department has been running behind on its coal supply. For new khaki uniforms for the seamen brigades of the Atlantic and Pacific fleets, which were not mentioned in the original naval estimates for the coming fiscal year, the sum of \$27,600 is asked. It is asked that \$64,000 be appropriated for the use of the steamships Morro Castle and Washington as transports and supply ships. The other naval items are: Equipment of vessels, \$19,566.47; clothing for the marine corps, \$49,535.50; military stores, \$168,825.30, and contingent fund, \$25,000.

The Bureau of Foreign and Domestic Commerce asks \$25,000 for compensation of field agents for collecting statistics of international commerce. The department of justice asks \$32,539.61 additional, but this is largely a matter of bookkeeping. The post-office department asks \$367,336, most of which is an increase to be paid to railroads for carrying the parcels post.

Thirty-five Patients.

The yard hospital at the present time has 35 patients under treatment.

The Herald Hears

HERALD HEARS That George Primrose, the well known minstrel man, has quit after 43 years of active service.

That he is now located at Los Angeles, Cal., where he has purchased a country home and will found an actors' club.

That George has quit several times before but could not keep out.

That he is estimated as the richest man in the theatrical profession.

That the Boston & Maine has put no Sunday night train on the Dover branch on the summer schedule.

That this was the only day the night train used to pay.

That the patrons of the road did not look for the train on week days, but expected it would run on a day when it would mean a revenue to the road.

That arrangements are being made for a Farmers' Day celebration at Hampton Beach the first week in August.

That automobile licensees so far granted at the office of the secretary of state include 7434 pleasure cars and 561 commercial vehicles.

That the "village blacksmith" has got them all frazzled on dance prompting.

That he needs no megaphone to do the job.

That the girls say they don't understand why he is pounding the anvil for a living.

That the Boston & Maine has not as yet given the public works and declined answer as to the matter of paving the freight yard.
